- (c) Educate the business and consumer communities as to the value, benefits and applications for connected devices and services through public statements, publications, trade shows demonstrations, seminar sponsorships and other programs established by the Alliance;
- (d) Protect the needs of business and consumers and increase competition among vendors by supporting the creation and implementation of uniform, industry-standard conformance test procedures and processes which assure the interoperability of connected devices and services;

- (f) Foster competition in the development of new products and services based on Alliance's specifications developed and/or adopted by the Alliance in conformance with all applicable antitrust laws and regulations.

The Alliance and its Members shall individually and collectively be committed to open competition in the development of products, technology and services, and Members shall not be restricted in any way from designing, developing, marketing and/or procuring hardware, software, systems, technology or services. Implementation or use of specific Adopted Specifications is voluntary. No Member shall be required or obliged
